PROGRAMMING REPORT

[JOHN ARENA]

DISCUSSION	Review Programming program	
CONCLUSIONS	<ul style="list-style-type: none"> Howard Shulman agreed to examine the course competency and course outcome wording for all programming language courses and recommend changes wherever needed. The CP and Database committees agreed to remove COMP1000 as a prerequisite for CIST1210 and CIST1220. The CP committee agreed that one additional CIST elective and one general elective should be added to the CP diploma program. The Internet committee requested that a lab component be added to CIST1305. The CP committee agreed to modify the CIST 1305 class minutes from 2250 lecture to 1500 lecture and 1500 D lab II. This will add a lab component but will not change the course credit hours. The committee noted that the C# Programming TCC information is missing in KMS. John Arena will forward the information to Steve Cagle.
